

# 2019 CONSTRUCTION EXCELLENCE AWARD WINNERS

ANNOUNCING NORTHERN CALIFORNIA'S TOP WALL AND CEILING CONSTRUCTION PROJECTS

This past June 6, the Wall And Ceiling Alliance (WACA) held its Construction Excellence Awards (CEA) show honoring contractors that demonstrated exceptional craftsmanship in their respective fields in Northern California. The ceremony showcased individuals and companies who contributed to the framework of the winning projects. A panel of AIA judges evaluated the projects and selected the winners, representing large to small projects.

CEA had more than 300 guests in attendance, it's one of the largest wall and ceiling awards programs in the western region and growing.

Thirteen contractors accepted Construction Excellence Awards, including O'Donnell Plastering Inc., Anning-Johnson Company, Golden Gate Drywall, Robert Boeger Plastering Inc., Swinerton, and Level 5 Inc. The Project of the Year awards went to Brady Company/Central California Inc., J&J Acoustics Inc. and California Drywall Co. In addition to construction merit, top companies were recognized for achieving strategic safety goals and low injury and illness rates. Excellence in Safety Awards went to KHS&S Contractors, California Drywall Co. and Raymond-Northern California Inc. for their high safety records and implementing best safety

practices in the work environment. Award-ees took the opportunity to address the room to highlight and thank the people and companies for the dedication and contribution to the projects. Suppliers and manufacturers who supported the winning projects were also recognized. A total of 40 companies represented by contractors, suppliers and manufacturers were honored at the Fairmont Hotel in San Jose in front of industry leaders, colleagues and peers.
