🚨 ACTION ALERT: SB 33 (Cortese) Pending Governor's Approval 🚨

Industry sponsored legislation, SB 33, has passed the California State Legislature and is now pending approval by Governor Newsom.

SB 33 preserves the fair public works change order and claims process that contractors rely on to be paid for work already performed. Without this legislation, the law is set to sunset in 2027, risking a return to payment delays, disputes, and costly litigation.

For nearly 10 years, this process has:

✓ Helped contractors get paid for extra work and change orders
✓ Reduced payment delays
✓ Prevented disputes from escalating into lawsuits

If Governor Newsom does not sign SB 33, these important protections will go away.
